

MITSUBOSHI®

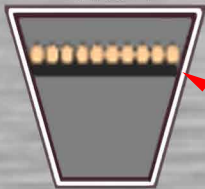

MULTI SUPER WEDGE II

5VK and 8VK with Aramid cords

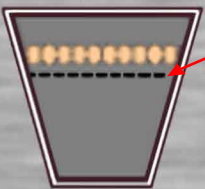

- *ARAMID* cords reduce excessive belt stretch under heavy loads & torque.
- Proprietary high density, flexible, compression rubber layer below cord line, designed to increase durability.
- Bareback Fabric for clutch effect allowing the belt to absorb heavy shock loads.
- These unique technical features gives our Multi Super Wedge II superior belt length stability, eliminating the need for constant tension adjustments.
